The prices of telecommunications services continue to decline for the second quarter of 2012. For mobile, ARPM (Average Revenue Per Minute) fell from 0.78% MAD (before tax) per min at the end of June 2011 to 0.62 MAD (before tax) per min at the end of June 2012, a decrease of 21%. The average monthly use per mobile customer rose 16%, reaching 67 min/customer/month. Prepaid still dominates with a share of 95.35% compared to 4.65% for postpaid
